**device: Bremsbeläge**  
**type: ME 100**

Dear Sir or Madam,

for the device mentioned above the following type number is reserved:

**KBA 61244**

It is pointed out that at another notation of the type (later in the application or test report) a different type number will be allocated!

By this temporary announcement, following your wishes, the decision on the application is under no circumstances anticipated. Therefore the applicant takes the risk of a not approved application on his own.

**It is pointed out to that this approval number (this type number) is reserved at the latest for you for 6 months.**

Parts with the a.m. type number may not be delivered or going into service before the decision about granting of the ABE is made. If nevertheless, apart from possible judgement consequences, the ABE is refused, already delivered parts must be retracted.

Kind regards

Olaf Jacobsen
